

More about SmartSapp

Safety, efficiency and convenience for schools, teachers, parents, and the kids that connect them, is what SmartSapp (Smart School Application) is all about. This multifaceted application provides real-time security, real-time updates and real-time benefits that are literally at your fingertips. Here school admins, teachers, and parents are provided with convenient tools that allow them to communicate and coordinate across a connected platform that's easy to use and highly secure.

Schools:
Plan and Manage meals for your ward(s)

Does your canteen prepare more food than your school needs?

Managing the dietary needs and preferences of students, in addition to all that goes into having a school canteen can be quite daunting if not handled properly

About Canteen Module

The SmartSapp Canteen Module smoothly facilitates the requisite processes for you, while giving parents peace of mind that you're properly handling their children's nutrition while at school.
