

MINEX360 SERVICES

PROFILE

Services that *Excites*

Introduction

MINEX 360 SERVICE LIMITED is a limited liability company registered in the Republic of Ghana. The Company is run on strong ethical principles and values which serve as critical guides to ensuring long-term trust for its services and brands. The Company's value-based Code of Business Conduct enjoins its staff to adhere to policies geared towards delivering exciting quality products and services to its clients in ethical manner.

The Company understands its growth is hinged, critically, on the trust of its clients in the Company's good business conduct accentuated by the core values of honesty, integrity, compliance to the law, ethical behaviour, proactivity and respect.

Board, Management and Staff

The Company's Board of Directors, responsible for the its strategic direction, leadership and management control, comprises the Executive Chairman and two Non-Executive Directors.

Management of the Company comprises its Chief Vision Officer, Heads of Finance and Administration, Research & Development, Products & Happy Partners Team, and Coordinator of Mining Services.

The Company presently has a staff strength of fifty-five with strong and diverse backgrounds.

Services and Products

The company offers 24/7 technical support services for collision avoidance systems as well as dispatch monitoring services in the mining industry. It also collaborates with high-tech multinational companies to provide mining technology solutions, including installation of technical systems and equipment to the mining industry in Ghana and West Africa.

Additionally, the company is engaged in software development. In 2017, the company launched its innovative application for schools, namely, *SmartSapp*. The *SmartSapp* software application is currently used by many high-end international schools in Ghana.

The innovative *SmartSapp* application helps schools manage drop-off and pick-up of students to ensure only authorised persons can pick up children from the premises of schools after closing whilst helping to eliminate traffic congestion during the drop-off and pick-up periods. *SmartSapp* offers parents peace of mind regarding the security of their children in schools as the problem of child kidnapping and/or stealing within school premises is effectively handled. Also, *SmartSapp* has a module for digitalisation of canteen operations into a cashless and paperless system. Again, it has the E-class, Online fee payment and Online Shop modules. *SmartSapp*, importantly, makes it easier for parents to be actively involved with their children's school life.

In the mining industry, MineX 360 Services Limited has been providing technical support services since 2012 to Goldfields Ghana Limited, Tarkwa, Newmont Golden Ridge Limited, Akyem, and Newmont Ghana Gold Limited, Ahafo.

Data Protection Policy

Data transmission between the SmartSapp and all servers and devices is encrypted and a firewall protects against attacks. A separate specialised technology protects against "Brute Force Attacks" while (HSTS) protects against packet sniffers. Enhanced server security - server hardening - protects against numerous attacks.

In Simple terms; your data/information is secured and safe on the *SmartSapp* platform. It's easy and user-friendly, well organized and has many features that makes it easy for you to be involved with your child's school life.
